

As we roll into Spring, there are a couple of changes we wanted to let you know about.

Last summer we had to BUY water from Rainier to fill our tank because we were using more water than the spring could produce. We would like to avoid this situation this year. The water district runs on a very small budget and needs to control costs where we can.

A lot of you have asked for a way to pay online. We have been working to provide this functionality.

Beginning this month (March 2025) you will have the ability to pay your bill with Venmo by sending \$\$ to (971)278-0584.

We are working to get a payment portal set up so you can choose to pay with PayPal or any credit card or debit card. These options will be available on an electronic billing.

If you choose to NOT use electronic billing, you can still use the Venmo option.

You can monitor this page on the website at <https://goblewater.com/page/pay-online> for further information.
